

Melos Alidema

Portfolio: github.com/melosalidema

Computer Science student at the University of Prishtina with hands-on experience in full-stack web development, IT administration, and computer networking. Experienced in building full-stack web applications with React, Next.js, Node.js, and PostgreSQL, with a strong background in AI-assisted development, API integration, and network troubleshooting (TCP/IP, HTTP). Seeking to contribute technical and problem-solving skills in software or network engineering roles.

Educational Background

University of Prishtina – Hasan Prishtina — Sep 2023 – Present

Bachelor's Degree in Computer Science

High School: Specialized Mathematical Gymnasium — 2020 – 2023

Experience

IT Administrator – KQZ

Sep 2025 – Jun 2026

Central Election Commission

- Provided technical support for staff and maintained IT infrastructure during the election process.
- Configured and supervised computer equipment and the local network.
- Resolved real-time technical issues to ensure operational continuity.

Certificates

- Probit Academy – Full-Stack Development (In Progress)
- CPA: Programming Essentials in C++ – Cisco (2019)
- 3rd Place in Kosovo – MicroBit Competition (2018)

Contact

Pozheran, Kosovo

GitHub: github.com/melosalidema

Skills

Programming Languages:

- JavaScript
- TypeScript
- HTML
- CSS
- SQL

Frontend:

- React
- Next.js
- Tailwind CSS
- Vite

Backend:

- Node.js
- Express.js
- REST APIs
- PostgreSQL
- Prisma

Tools & Technologies:

- Git & GitHub
- Docker
- Netlify
- Cisco Packet Tracer

Other:

- AI-assisted development
- AI API integration
- TCP/IP & HTTP
- System design

Projects

Stay in Kosovo – Smart Tourism & Mobility Platform

<https://stayinkosovo.netlify.app/>

- Built a mobile-first tourism platform for discovering places, planning AI-generated itineraries, and exploring live city insights across Kosovo.
- Implemented REST APIs, role-based authentication, and an explainable recommendation engine backed by PostgreSQL.

Technologies: Next.js, TypeScript, Prisma, PostgreSQL, Tailwind CSS, Docker

NŪRA Skin – Skincare E-Commerce Storefront

<https://nuraskincare-dev.netlify.app/>

- Developed a responsive e-commerce storefront with product variants, a routine builder with bundle pricing, and a persistent cart drawer.
- Focused on an accessible, mobile-first shopping experience with full keyboard support and local-storage cart persistence.

Technologies: HTML, CSS, JavaScript

Fixpoint – Multi-App AI Agent

<https://youtu.be/0u5WcobheGo>

- Built an agent that resolves customer exceptions across Stripe, Gmail, Slack, HubSpot and Drive — and verifies its own work against real system state before claiming success.
- Implemented a deny-by-default action gateway, HMAC-bound approvals, a hash-chained audit log, and an S1–S16 evaluation matrix (16/16 pass, zero unsafe mutations).

Technologies: Python, FastAPI, PostgreSQL, React, TypeScript, Docker

Codevio – Agency Platform

<https://codeviodev.netlify.app/>

- Developed a responsive web platform focused on presenting web development services and digital solutions.
- Implemented modern UI components, responsive layouts, smooth animations, and interactive 3D visuals.

Technologies: React, Vite, Tailwind CSS, JavaScript, GSAP, Three.js

GoDrive Korea – Car Import Marketplace

<https://godrivekorea.com>

- Built a full-stack marketplace for browsing, comparing, and tracking used-car listings from South Korea, synced live from the Encar provider API.
- Implemented filtering and sorting, price history, favorites, saved-search alerts, and booking requests with email notifications.

Technologies: Next.js, TypeScript, PostgreSQL, Prisma, Redis, Docker

Copper Kitchen – Restaurant Platform

<https://copperkitchen.netlify.app/>

- Developed a full-stack restaurant platform with an owner admin dashboard for managing the menu, opening hours, photos, and reservations.
- Built a REST API with PostgreSQL persistence, plus a conversion-focused public site with structured data and online booking.

Technologies: Next.js, Express.js, PostgreSQL, Prisma, Tailwind CSS, Netlify

Languages

- Native Albanian
- English (B1/B2 Intermediate)

Interests

- Software Engineering
- Network Engineering
